

SAFETY POINT

Protection materials

STAY SAFE & prevent from infection

SAFETY POINT is a Tabletop vending machine developed with social contribution in mind, in order to support public health protection against COVID-19.

With only a small footprint, the non-refrigerated machine can accommodate various protection materials such as masks and sanitizing gel that are required for daily safety precautions.

INTERNAL
STORAGE AREA

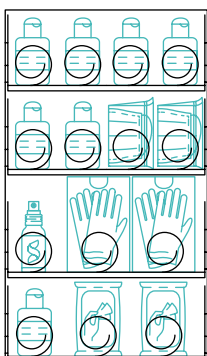

A simple design with an intuitive function, this machine is suitable for the reception area of an office, hotel, restaurant entrance or nursery home to provide an additional service for the customers and visitors. The machine is ready-to-connect with the NFC payment system allowing the contactless transactions.

The air recirculation fan will facilitate ventilation of the cabinet.

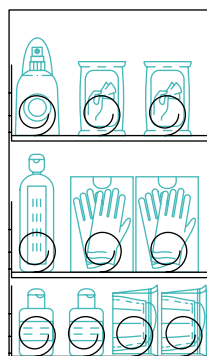

A storage area is available inside to stock the products which means optimized logistical handling.
