

## MODULAR C3 TOUCH-FREE SOAP DISPENSER

### Physical Characteristics

Touch-free soap dispensing encourages better hygiene in any environment and helps monitor the use by controlling the amount of soap dispensed. No electrical fitting is required, as each dispenser is economically operated by C size batteries. It also features an auto-switch function between two battery compartments for longer running times.

To ensure optimum cost savings, the device has a 'sleep mode' and a capacitive sensor that prevents accidental soap delivery.

### Features & Benefits

Touch free mechanism encourages the highest hand hygiene

Interchangeable pumps

Dispenses up to 1ml liquid

Compatible with table top stands and floor stands

### Specifications:

#### Suitability:

Flowable liquid soap and sanitiser fluid
