Brio3 & Minisnakky

Not enough space to expand your business?
Think again...

GREENER
BY NATURE

NECTA

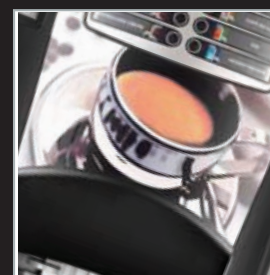

COMPACT, RELIABLE AND COMPLETE: these are the characteristics of the 'banked' Brio 3 and Minisnakky; a winning combination aiming to become the comprehensive, benchmarked route to successful vending in space-conscious situations.

The Necta snack range for small locations is now completed with the new MiniSnakky. Using it in bank with Brio3 allows a complete offer of products in small and medium locations. The new MiniSnakky allows to dispense bottles, cans, tetrapacks, snacks and confectionary.

GREENER BY NATURE

hot&cold

- Banking Brio 3 with Minisnakky delivers a compact, all-in-one vending solution
- Hot and cold – it's all covered. Hot drinks from Brio 3, snacks and chilled drinks from Minisnakky
- Designed to be compatible
- Two machines, but one user interface and payment system for optimum convenience
- Tempting visibility of available products
- Outward opening of delivery bin makes purchasing a pleasure

Brio + Minisnakky

- Total height: 1,840mm
- Minisnakky is 'banked' with the Brio 3, enabling both machines to share a single payment system
- In the unlikely event that one of the machines goes out of service, the other will continue to operate normally
- Our Vend Detection system is an option on Minisnakky
- A 20L water tank is available for the Brio 3 to enable use in areas where 'plumbing in' isn't an option
